Bring ocean-side colors and textures to your tropical drinks with Orion's Del Mar and Cabo Glassware

Crafted of recycled glass, each piece of the Orion line is mouth blown and hand shaped by skilled artisans carrying on a centuries old tradition. High-tech factory production methods have tried to imitate the techniques of native blowers; but none have captured the substance, warmth, individuality of shape, and the exquisite elegance of Orion glass pieces.

MEXICAN HAND MADE GLASSWARE

All our glass is lead free. As every glass is individually blown and shaped slight variations in size and colors are normal. The process also creates occasional small trapped bubbles. In short — no two glasses are exactly alike — which of course is part of the beauty and charm of Orion glass.

The Classic Margarita

**Glassware Handmade to Our Specifications
especially for Restaurants, Bars and Hotels**

The technique of making this unique glass is done by blowing through a pipe onto a molten glass mass. As the glass maker blows he begins to mold the piece by continuously turning it around with the pipe. As the piece begins to cool it's shaped as required while color is added to bring to life beautiful individual effects. Many designs, such as small bubbles, splatters, colored swirls, confetti or pebble patterns can be produced.
